# Wind Up Here

## Ugly Friend

I've rolled the dice
I've rolled my life
A dog out in the rain
Up against a viscous pack of wolves
I've always played the odds
Way back in school
Trouble led each day,Times were cruel

Conscious so unclear
Drag me from these fears
How the hell We'd Wind up here

I wore a string of broken hearts
Up and down my sleeve
Nameless night stupefied
From the bottles that we drink
I wish the sun would sleep some more
She blinds me when I wake
That clock on the wall
Still ticking to my grave

Conscious so unclear
Drag me from these fears
How the hell We'd Wind up here

Lately I've been a mess lights out
Something along the way I never found
Clouds rolling in dark and loud
One more storm to ride out....

Conscious so unclear
Drag me from these fears
How the hell We'd Wind up here
