Honor Is All We Know

Rancid

Don't change a goddamn thing, hold your head up high
When the hard times come, we have the strength to defy
Believe in yourself, let the arrow leave the bow
Honor is among us, honor is all we knowThe night has come and we no longer see
Better days around the corner, for you and me
Receive the horizon dawn's golden glow
Honor is among us, honor is all we knowIt takes courage to make it in this land
So don't forget, but forgive every man
And prosperity's river it will forever flow
Honor is among us, honor is all we know
