Scarface Groove

Paris

Hail to the man with the righteous groove
So sick that it makes you move
Closer to the speaker, never weaker
Lines on time and I rhyme MalikaLot of knowledge on the microphone when I speak
Rabbit MC's I love to eat
Shockin' with the rhyme, gettin' sicker with time
I'm comin' way too real and I'm blowin' your mindI'm tearin' shit up, I won't let up, you need to get up
And out and on the floor, 'cause I'm fed up
With rhymes and words that's weak that's wack, absurd
Pollutin' the airwaves, too often heardI come through with the rhymes, so true blue with the rhymes
I eat you with the rhymes and on and on and in time
I'm movin' with the smooth the groove that some consider dangerous
And you're playin' this, I ain't new to thisYeah, it's a Scarface GrooveParis is the name and I'm here to get sick
I mean I'm stronger than a tiger and I'm down with the click
While makin' sure my song is deffer with an 808 kick
And now you know it, I'm a poet and I'm harder than a brickI makin' over 3 G's a day and you say
That Mad's cuttin' like a blade over sucker DJ
Start shinin' all the time that I'ma standin' on stage
It's a Scarface mob and we're sicker than aidsWhat I wrote, is no joke, there's no hope
It's too dope, you're gettin, broke by a cutthroat
While bein' killed is the price you're billed
There's no time to rhyme and no time to buildSteadily the melody plays and steadily bass
Is in the place, is in your face, with grace
Sensation and finishin' the suckers with my sentencin'
You get excited as the rhyme begins, you're goin'Smooth with the Scarface Groove
This the Scarface Groove, y'all
It's the Scarface GrooveStartin' to sweat, I know it's hard to breathe
Rhymes are on time so you better believe
The style, sick of the style, 'cause the style is wild
I couldn't never be mildAnd now I'll begin to advance in a b-boy stance
The underground sound makes you clap your hands
It's the B-A-Y, do or die
Born to freestyle, born to riseAnd now I'll keep on rockin' the beat on
No one comin' up short capiche on the mic
You're scared, runnin' from the man you fear
P-Dog is sick boy, you better bewareThe man X-Rated, rated X the man
Is comin' through with the jams that keep you clappin' your hands
While I'm movin' nonstop and the party is smooth
One hundred below ice cold, it's a Scarface GrooveYeah, it's a Scarface Groove

It's a Scarface Groove, y'all
Y'knahmsayin'? It's a Scarface Groove
I'll play the 9 and you play the targetDebutin' I'll do it for sure by comin' through
And never stoppin' hip-hop, I just drop, MC's are ruined
Now I'm teachin' when I'm talkin' so that you'll get taught
Makin' sense so intense is the record you boughtI'm stronger, strokin' 'em longer
Stickin' them, dope MC's go under
Keepin' 'em down with the Scarface sound
Swimmin' 9 millimeter laps, MC'sll drownKeep talkin' that bullshit, you might get housed
Smacked in your mouth, P's turnin' it out
Money stackin' and mackin' is what I'm talkin' about
I'm never playin' or bullshittin'The rhyme'll go colder than ice, but get hotter than coals
Big soul on a roll and only twenty years old
Keep it goin' non-stop and the party is sore
And I'm movin', smooth again, Scarface is onYeah, Scarface is on
Scarface is on
Yeah, Scarface is on
