

# Brothers of the Highway (feat. Aaron Tippin)

## Tony Justice

Diamonds on the Windshield as heaven starts to cry. And in his rear view mirror, his angel waves goodbye. She knows he's goanna go, she knows she is one of them.

Brothers of the highway! Children of the wind! That Detroit diesel pirate ship goes bowling out again. Sailing toward the setting sun, freedom's her best friend. Brothers of the highway! Children of the wind!

We've put Pedal to the metal trying to outrun the rain. Another shot of Truck stop coffee as it running trough his vines.

Oh this world on terms on eighteen wheels thank god we can depend!

We're Brothers of the highway! Children of the wind! That diesel Detroit pirate ship goes bowling out again. Sailing toward the setting sun, freedom's her best friend. Brothers of the highway! Children of the wind!

Carolina west to Denver. Barware gees to Pittsburgh. Postnasal to San Diego, settle on settle on!  
Tallahassee north to Boston. Ugandan west to Austin. Coast to coast and see to see, settle on settle on!  
You're brothers of the highway, (jeah bro), children of the wind! That Detroit diesel pirate ship (Sing it Tony)goes blowing out again. Sailing toward the setting sun, freedom's her best friend. Brothers of the highway! Children of the wind!

Brothers of the highway! Children of the wind! That Detroit diesel pirate ship goes bowling out again. Sailing toward the setting sun, freedom's her best friend. Brothers of the highway! Children of the wind! Thank god you brothers of the highway, children of the wind!

(Good job man! That's a big ten forward!)
