My Only Cure

Recover

All the cells in my body
Are giving up slowly
You're an injury
And I am unholyStreet smart like a sailor
Worldly like a whorePermanent sleep is my only cure
It hurts all the time, it won't hurt anymore
You can't help me, no one can
You can't help me, no one canAll the blood in my body
Is pouring out slowly
You're the reason why
I am unholyWorldly like a sailor
Street smart like a whorePermanent sleep is my only cure
It hurts all the time, it won't hurt anymore
You can't help me no one can
You can't help me no one canDrive half way, drive half way
You won't make it, you won't make it
Drive half way, drive half way
You won't make it, you won't make itYou can't help me, no one can
You can't help me, no one can
You can't help me, no one canDrive half way, drive half way
Drive half way, drive half way
