49

Xuman

VERSE 1
Stay away from me
Youâ€™ve left all the hope
And only 49 scars
Donâ€™t blame the trees
Youâ€™ve gone all alone
I never wanted you back
So tenderly
Youâ€™re giving the roles in all the best scenes we had
Tremendously
Youâ€™re going out to use it

CHORUS
For I can see the whole night and every day
You sit up there
On golden chains
But for the craving itâ€™s way too late
Your diamonds are the shadow play

And I can see the whole night and every day
You fade out there
In endless plain
But for the craving itâ€™s way too late
Nothing ever cost the any rate

VERSE 2
Stay away from here
Youâ€™re lost in the dope
Much more than 49 times
Youâ€™re playing queer
Youâ€™ve managed to probe
I never wanted you back
So tenderly
Youâ€™re giving the roles in all the best scenes we had
Tremendously
Youâ€™re going out to use it

POST-CHORUS
You will not find
What I know

You tell us to be the same
In their flow
Do it to celebrate
What you show
Confide it
Confide it
