Face Down

Modern Skirts

Let down and not amused
You walk in and wonder what to do when youre famous in a small room
You decided to leave with a card up your sleeveTaking photographs of her when youre bad on a bender
Is why it took some time to remember
She was keeping you calm, you were calm all alongYou bought a place outside of town
Her picture lays face downYou took a cab from the club and the ride wasnt easy
She wouldnt settle down and you were dizzy
When it started to pour, you washed up at her doorA little place outside of town, your picture lays face downLet down and unamused
You walk in and wonder what to do when youre famous
