ItÂ´s alright

Whitehouse

WhitehouseAlrightThey had all the training they know what we can take
Years of learning oh it`s still a fakeProgrammes for us all policies a mile long
But they won`t hear our call that priorities are wrongBut it's alright now baby
Let me tell you now that it's alright
It's alright now honey
Don`t you worry none cause it`s alrightSee them on tv their willingness intense
But anyone can see they lack the common senseThey make all the rules then they tell us we should choose
They must think we're fools cause every way we look at it we loseBut it`s alright now baby ...
Let me tell you now that it's alright
It's alright now honey
Don`t you worry none cause it`s alright
Its alright now baby
Don`t you worry none cause it`s alrightLook at their inventions poison and technology
Half the world is starving but they just refuse to seeThey are in control they think I have no choice
But they won`t take my soul though they may silence my voiceBut it`s alright now baby
Shake it down now, everything is alright
It`s alright now honey
Don`t you worry none cause it`s alright
Its alright now baby
Don`t you worry none cause it`s alright
...
It`s the way you take me, the way you tell me it`s alright
We can make it, if you just let me step inside
I know you`re shaking, for all your wounds are open wide
But I can say alright.But it`s alright now baby
Shake it down now, everything is alright
It`s alright now honey
Don`t you worry none cause it`s alright
Its alright now baby
Don`t you worry none cause it`s alright
