Half the Way

Crystal Gayle

Half of your love is just not what I'm after
Part of your world is just not what I need
Some of your time is like one glass of water
Just leaves me thirsty for wineSo fill me up to the top
Oh, don't you stop till I'm over-flowing
Love is the seed
And babe, I need you to keep it growing
Stronger every day, oh no
Don't take me half the way
Don't take me half the wayNever before have I settled for second
All of my life, I have hungered for more
Now I can see where your sweet love can lead me
This is what I've waited forSo fill me up to the top
Oh, don't you stop till I'm over-flowing
Love is the seed
And babe, I need you to keep it growing
Stronger every day, oh no
Don't take me half the way
Don't take me half the wayDon't take me half the way
Don't take me half the wayHalf of your love is just not what I'm after, no
Part of your world is just not what I need
Now I can see where your sweet love can lead me
This is what I've waited forSo fill me up to the top
Oh, don't you stop till I'm over-flowing
Love is the seed
And babe, I need you to keep it growing
Stronger every day, oh no
Don't take me half the way
Don't take me half the wayGive me all your love
Don't take me half the way
Don't take me half the wayGive me all your love
Don't take me half the way
Don't take me half the way
Don't take me half the way
