Deep South

Donnie Evetts

We travel a lot of places
yeah weve been known to get around
but there aint a place in the world
we love more than our home town

Weve been to the big apple
weve partied hard in Tennesse
Its too damn cold in Colorado
I guess I need that southern heat

cause were from the deep south
the middle of the lone star state
where life is great
yeah were from the deep south
just good ole country boys
doing things our way

we love the girls in Florida
theres hotties in Cali too
but there something about them cowgirls
those tight jeans and muddy boots

cause were from the deep south
the middle of the lone star state
where life is great
yeah were from the deep south
just good ole country boys
and that will never change

yeah were from the deep south
yeah were from the deep south
