We Wanna Party

Girls Aloud

My dedication is to my art
No education will buy my car
Too much temptation and help too far awayWe dress in black, we won't be light
We're so depressed we wear our shades at night
With our distress we might just fade away
Away, away, away, awayWe wanna party but we got no soul
We wanna start it, blow our senses out of control
We wanna make it but we got no way
We're gonna hate it but we might just fake it todayWe wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no loveI'm disillusioned with my dreams
Got life confused with my designer jeans
Hey what's the use with help too far awayWe're on the list in every line
We're anarchists if we can get the time
Without the shit we might just fade away
Away, away, away, awayWe wanna party but we got no soul
We wanna start it, blow our senses out of control
We wanna make it but we got no way
We're gonna hate it but we might just fake it todayWe wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no loveWe wanna party but we got no soul
We wanna start it, blow our senses out of control
We wanna make it but we got no way
We're gonna hate it but we might just fake it todayWe wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no loveWe wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no love
We wanna party but we got no love
