Wings Of Love

XTM

I was living in a daydream
Letting time a days my mind
I didn't know what I was missing
Till you came into my lifeWhen I saw you pretty girl
Felt as going inside
When I kissed you pretty girl
Felt you lighted up my mindBoy I'm crying
I'm on the wings of love
And I know that
It comes from junior loveAll in hands we walk together
Nothing's gonna make us fast
But our love wil lives forever
If the sun that's in our heartMaking love is also sweet
We're lost in each others eyes
And I bought infinity
That the one turnes to lifeBoy I'm flying
I'm on the wings of love
And I know that
It comes from junior loveNow I'm living in a lovedream
Time and days are passing by
Now I really know what love is
I can't help smiling all the timeWhen you're with me pretty girl
I feel your warmth by my side
When you touch me pretty girl
Brings that joy often highBoy I'm flying
I'm on the wings of love
And I know that
It comes from junior love
And I know that
It comes from junior love
