Coming Home

RÃ¶yksopp

Ooh, Jason Derulo
Oh, Pixie
Oh no, usually I'm always late
Tonight I'm gonna be on time
I'm coming home straight after work
So you can have me all to yourself
We'll be alone just me and you
Where no one interrupts what we do
You say, where are you going?
In the night, I'm awake
'Cause my body's not to close to you
But you don't call me out of respect you can bet that
You'll be waiting home for me
I'm out for the whole day
Try'na do it my way, Monday to Friday
Gotta make my baby understand
I do this for you, boy but you deserve the time
I'm coming home straight after work
So you can have me all to yourself
We'll be alone, just me and you
Where no one interrupts what we do
I'm coming home straight after work
So you can have me under your spell
All night, all day
So you can have me all to yourself
I'm coming home
You're always complaining
In the morn when I awake from my sleep
Brush my teeth and me
Now that I'm famous
It's hard making time
For the woman that's close to me, yeah
I'm out for the whole day
Try'na do it my way, Monday to Friday
Gotta make my baby understand
I do it for you, girl 'cause you deserve the time
I'm coming home straight after work
So you can have me all to yourself
We'll be alone, just me and you

Where no one interrupts what we do
I'm coming home straight after work
So you can have me under your spell
All night, all day
So you can have me all to yourself
When I'm away I miss my baby
Yeah, I'm gone with half my heart
God knows I must be crazy
For loving from afar
But tonight it's gonna be different
'Cause I'm coming home
I'm coming home straight after work
So you can have me all to yourself
We'll be alone, just me and you
Where no one interrupts what we do
I'm coming home straight after work
So you can have me under your spell
All night, all day
So you can have me all to yourself
I'm coming home straight after work
So you can have me all to yourself
We'll be alone, just me and you
Where no one interrupts what we do
I'm coming home straight after work
So you can have me under your spell
All night, all day
So you can have me all to yourself
Have me all to yourself, all to yourself
