Free Love

Kettleblack

She moves so quick, she moves so fast
She moves so quick, she make the good times last
She said that even in the mornin' said you know it's on
Even in the mornin'
Free love, free love
Free love, free love, love, love, love
She like it rough, she bendin' bones
She starts a screamin' when she's ready to go
She said that even in the mornin' said you know that it's on
Even in the mornin'
Free love, free love
Free love, free love, love, love, love
Pretty girl, come with me, two on two, three on three
Passion is the flavor climbin' up this tree
Make a fuss, move around, keep it on the underground
Just beneath the covers I can see the sea
She knockin' knees so full of pride
She make the move 'cause she's got nothin' to hide
She said that even in the mornin' said you know that it's on
Even in the mornin'
Free love, free love
Free love, free love, love, love, love
Free love, free love
Free love, free love
Free love, free love
Free love, love, love, love
Love, love, love, love, love
Free love
