The Wildest Heart

The Elms

She's an angel in a one horse town
Like a rolling cloud surrounded in blue
She's a stranger to the wise advice
Rather roll the dice than settle for goodAnd she's the wildest heart I know
She's the wildest heart I know
She's the wildest heart I know
Out there running free, riding on a dream
The wildest heart I knowOn the weekend, she don't need no rest
She dancing pirouettes outside in the sun
She don't worry when the bad news comes
Keeps her head up high and song in her lungsAnd she's the wildest heart I know
She's the wildest heart I know
She's the wildest heart I know
Out there running free, riding on a dream
The wildest heart I knowShe's an angel of a different kind
Not the type you'll find out there on a cloud
