Don't Make Me Live Without You

No Mercy

Live without you, I don't know what I would do
If you ever left me, if I ever lost you
This heart of mine would be dying
Shadows would shine out the sun
It would be a whole dark world
Without your love beside me
And how do I survive if I don't have you here
Here in my life
Make me walk across, across the burning sands
Make me hold the whole weight of the world in my hands
Baby, don't, don't, don't make me live without you
And I'd never make it
Don't, don't, don't make me live without you
Live without you
Maybe I need you too much
Never needed anything the way I need your touch
If you ever go, I'll go crazy
Take away all that I own
Take the very air that I breathe
My very heart and soul
But baby
Don't take your love from me
'Cause if I don't have you here
I don't have a thing
Make me walk across, across the burning sands
Make me hold the whole weight of the world in my hands
Baby, don't, don't, don't make me live without you
And I'd never make it
Don't, don't, don't make me live without you
Live without you, live without you
I need you here in my arms
As long as I live, as long as I breathe
I need you here, beside me
Make me walk across, across the burning sands
Make me hold the whole weight of the world in my hands
Baby, don't, don't, don't make live without you
And I'd never make it
Don't, don't, don't make me live without you
