## Black Francis

Pardon my cliche  
But I want it with you  
I couldn't go away  
Because I need it with youNow I cannot hide  
    All this tension  
    I want to be inside  
    That's my intentionInside of you  
        All the way  
        All the way  
Every way in youNow I cannot hide  
    All this tension  
    I want to be inside  
    That's my intention
