Miracles (Mega Is a Gang Remix)

Newsboys

You ever seen a brother or sister who could cure a disease
I hadn't but I wanted to
Show the world that nothing's impossible if they can believe
They're gonna see a miracleI didn't know what to do
So I went running to you
To find that cure
Now I know for sure...I'm done looking around
I finally figured it out
It's more than metaphysicalYou got me up from down
Faith has shattered my doubts
I believe in miraclesI knew what I wanted to do but just like gravity's pull
I always did the oppositeLife was a meaningless party
I started to fall into a bottomless hole
But then I got a miracleSome people don't have a clue
If all of this could be true
But take a look at me
I was blind but now I seeI'm done looking around
I finally figured it out
It's more than metaphysicalYou got me up from down
Faith has shattered my doubts
I believe in miraclesThere's something that's missing
If we can't recognize
That our own existence
Is the miracle before our eyesI'm done looking around
I finally figured it out
It's more than metaphysicalYou got me up from down
Faith has shattered my doubts
I believe in miraclesI'm done looking around
I finally figured it out
It's more than metaphysicalYou got me up from down
Faith has shattered my doubts
I believe in miraclesIt's more than metaphysical
