Mellow Doubt

Diamond Rings

It gives me pain when I think of you
And the things together that we'll never do
At first it's cold and then it's hot
Tried to be someone that I know I'm notI'm in trouble and I know it
How I'm feeling, I can't show it
But these feelings, don't go awayI remember you, lines on your face
Sharing a moment in the perfect place
Deep in your eyes and inside your head
And I try to reach you when I'm in my bedIn trouble, I know it
I'm feeling, can't show it
These feelings, don't go awayThere is no choice, what I must do
Nothing is greater than to be with youIn trouble, I know it
I'm feeling, I can't show it
But these feelings, don't go away
