Feel

Michelle Tumes

Hark! The wind of passion
Swiftly weaving over your soul
Bless the surge of thunder
Rolling onto your shoreGreet the deep emotion
That sleeps beneath the ocean floor
Watch elation bound release
Its furious roarFeel! Feel! Feel! Feel what you long to
Feel! Feel! Feel! Feel what you long to feelPound the sands of courage
Reach for clouds that cover the foam
Dance with bold expression
Leaping form silent abodesFace the wild commotion
Free restraint and struggle no more
Let the moon raise all that
Dwells in the tides of your coreFeel! Feel! Feel! Feel what you long to
Feel! Feel! Feel! Feel what you long to feelWeep, sigh, laugh, cry
Flee from the snares that wish to
Deny how you feel
Hope, live, love, yearn
And feel, feel what you long to
