Second Time Around

Robin Rogers

Let me love you, let me show you
It's going to be better the second time around
I've got real intentions baby and I can't slow down.Our loves been tested and even been suggested
We ought to walk away leave it alone.
We got too much time invested in our happy home.I had my guard up baby but that's all over now.
Guess I take this gamble; see if the truth turns our love around.Let me love you, let me show you
It's going to be better the second time around
I've got real intentions baby and I can't slow down.I had my guard up baby but that's all over now.
Guess I take this gamble; see if the truth turns our love around.If love is a garden, damn right we starve it
No water, no sun and no light
Just lay there dying, deep in denying to keep it aliveLet me love you, let me show you
It's going to be better the second time around
I've got real intentions baby and I can't slow down
