Lead Us

Nate Sallie

Under the street lights
The rain's coming down
No one's out tonight
I'm walking around alone'Cause it's quiet here
I'm just trying to think
Are You real?
Out here alone on the streetJesus, come and lead us
There's no easy way out of the night
Jesus, come and free us
You're the only way into the light
Jesus, You save our livesShe's seen it all
She's barely sixteen
And it's a crime to be
Young and afraid and aloneWe all make mistakes
We've all been lost
So we've come to You for forgiveness
And a second chanceJesus, come and lead us
There's no easy way out of the night
Jesus, come and free us
You're the only way into the lightShow us, lead us
On from this place
How we need You to give us
The strength that it takesWe're right here
Right now
Cryin' out
We're cryin' outJesus, come and lead us
There's no easy way out of the night
Jesus, come and free us
You're the only way into the light
Jesus, You save our lives
