Nylon Moon

You think you're something right
You think you're something all
You think that you're not a lie
I think you're nothing at all
You think you're so damn real
You think you're so damn tall
You think you're something right
I think you're something wrong
I think you're something wrong
I think you're something
And man, you're goin' down
(Got yourself believing in something)
(Got myself believing in nothing)
(Got yourself believing in something)
(Got myself believing in nothing)
You think you're so damn right
You think you're so damn swell
You think that you're not alive
I won't see you in Hell

You think you're so damn real
You think you're so damn high
I see the way you live
I'll see the way you die
I'll see the way you die
I'll see the way you
And man, you're goin' down
(Got yourself believing in something)
(Got myself believing in nothing)
And man, you're goin' down
(Make yourself a God, I know who you are)
And man, you're goin' down, down, down
Down, down, down, down
And man, you're goin'
And man, you're goin' down
(You were the God of your own mind)
And man' you're goin' down
(Make yourself a God, I know who you are)
(Make yourself a God, I know who you are)
