Curious Love

Nils Bech

I try to wake you up, I try to tease you
Been waiting for three hours, what's a man gotta do
Hope you wake up soon and that you want to
I'm still lying here feeling ignored by youBut is this love or is it just rejection
And nature makes it hard for me to act as myself
Oh how I wish that we could be as whoever
Would then this be as simple as for every one else?And the answer my friend, and what the answer would have said
Yes, the answer my friend, is sealed from the pastCurious love
Want your curious love
One stroke and you're gone
Want your curious loveFinally you wake up, then you leave me
Now I see that it's just insecurity
Please come back to bed and let me hold you
Sex is not the only thing we have to doAnd the answer my friend, and what the answer would have said
Yes, the answer my friend, is sealed from the pastCurious love
Want your curious love
One stroke and you're gone
Want your curious loveI can't take this, how I want it
