Lifeline

Uriah Heep

Well, I'm not superstitious
But there's something going on inside
Could be friendly, could be vicious
And there isn't any place to hide
It's my imagination, a blessing or a curse
No, I can't ignore it for better or for worse
It wakes me when I'm sleeping
A thief that takes my breath away
And I find myself reaching for a lifeline
Throw me a lifeline and bring me back in time
I need a lifeline, throw me a lifeline
I'm going down for the last time
Sometimes, I can't control it
Sometimes, it isn't there at all
Sometimes, I try to roll it
And wind up staring at the wall
My imagination, I love the games it plays
I get in so deep that I get lost for days and days

It sometimes leaves me shakin'
Standin' in the dark alone
And I find myself reaching for a lifeline
Throw me a lifeline and bring me back in time
I need a lifeline, throw me a lifeline
I'm going down for the last time
Can't you see that I am reaching?
And I find myself reaching for a lifeline
Throw me a lifeline and bring me back, back in time
I need a lifeline, throw me a lifeline
I'm going down for the last time
I need a lifeline, throw me a lifeline
I'm going down, down, down, down, down for the last time
Lifeline, going down for the last time
Can't you see that I am reaching?
