The Beach Party

Hot Chip

Don't want all this cold cold shit
Throw off your shirt and let's get hot, hot, hot
We've never been, we've never been to the bridge
Throw off your skirt and let's begin the rock
I've been to all the places on the block
(You can believe it, believe it or not)
I like to rock, rock, I like to rock, rock
Jump right in and in too deep
Throw off your towel and let's get wet, wet, wet
Bermuda shorts are comin' back to town
Throw off your pants and let's begin the dance
I've been to, I've been to all the beaches, on the strip
And you better believe this shit
I like to dip, dip, I like to dip, dip
Don't want all this cold cold cold shit
Throw off your shit and let's get hot, hot, hot
We've never been, we've never to the bridge
Throw off your skirt and let's begin the rock
Oh yeah, I'm over here, oh yeah, you're over there
We could get over here, then we begin to share
Hot love on a platter, let me be your dancer
Hot love on a platter, let me be your dancer
