Country Fair

Van Morrison

We stood and watched the river flow
We were too young to really know
In the country fair, oh, in the country fair
We laid out in the long green grass
And never thought that it would pass
In the country fair, in the country fairOn an old, on an old open day
On an old rain shine open day
In the country fair
In the cool night air
In sweet summer timeWe counted pebbles in the sand
Sand like time slippin' through our hand
In the country fair, in the country fairOn an old, on an old open day
On an old rain track open day
In the country fair
In the cool night air
In sweet summer time
