Clouds

Matraca Berg

I looked in your eyes this morning
And the blue just turned to gray
I keep waiting for the storm that's coming
But it's just another dark dayI only like clouds when they're raining
They do me no good just hanging round
I only like clouds when it's raining, baby
When it's coming down
Why don't you just let it come on down?Let me take the weight off your shoulders
There ain't no easy way to leave
Someone's gonna cry before it's over
Maybe that's just what I needI only like clouds when they're raining
They do me no good just hanging round
Blocking my sun for no good reason, baby
When it's coming down
Why don't you just let it come on down?
