Nothing to Lose

Tonca

[Verse]Well I've had better nights than this
But ill settle for your kiss
When the morning comes, after a long
Night out on your porch
And the rain it brings
Back memories
Of the late night walks, just you and me
Months of time well spent
With hopes to be
Better than them all
[Chorus]So I gave you my all
Just to notice you were gone
And countless weeks have passed
And I still cant let you go
But I gave you my all
Just to notice you were gone
You left me broken down
You cared for me at all
[Verse 2]Well I've felt better than right now
I'm hoping this will pass somehow
Theres no chance to clear,
Unless you are here

Standing by my side
And the clock strikes three
Where are you dear
Your so far away
Yet you feel so near
I'm waiting by the phone
So I can hear your voice
[Chorus]So I gave you my all
Just to notice you were gone
And countless weeks have passed
And I still cant let you go
But I gave you my all
Just to notice you were gone
You left me broken without
A care for me at all
So I gave you my all

Just to notice you were gone
And countless weeks have passed
And I still cant let you go
But I gave you my all
Just to notice you were gone
You left me broken without
A care for me at all
Look me into my eyes
And promise me you'll stay
