Never Let 'Em C U Sweat

Nelly

I was forced to live the crazy life
Y'all niggas don't understand what a day be like
Got a son know my Pop's didn't raise me right
When Pennedy don't pay me right
No baby wipes
Keep the .380 tight
Mercedes dyke
On a shady night
Y'all niggas is lady like
Roll with niggas that'll watch your arm
Run in your crib pop your Mom
Like, "bitch, where the stocks and bonds?"
In the studio, you thug wanna block your calm
Tell a nigga I'm like flex I drop the bomb
You come to war with a switch blade
Get laid
Nigga I'ma spit the gauge at your rib cage
We thugged out
Y'all niggas is bitch made
You picked yay, it ain't off white the shit grey
Your customers mad, ready to let the clips spray
Out of a week I stay in a lab for 6 daysI brought my right guard incase my shot ain't handy
Speed stickin' me and mine
If I turn it up a degree
The secrets still kept
Never let em see you sweatI brought my right guard incase my shot ain't handy
Speed stickin' me and mine
If I turn it up a degree
The secrets still kept
Never let em see you sweatI'm second to none nigga
Yo iz lead in my gun
Bullets ricochet off the window
Through the head of your son
I've been runnin' like 20 miles
I ain't sweatin' for fun
Yo it's hard to be a team when the second is one
'Cause I follow very
Wanna wife like Halle Berry
Yeah I ain't trying be locked up under consolitary

How you gon' stop a nigga, unstoppable
How you gonna pop a nigga that pop for you
Hop out in the drop top, aqua blue
Got the bitch screamin' "Please, Please, not my boo"
I'm far from shook, I deal with smart crooks
You know the name
Switch up the game like Garth Brooks
Like ten cars, from Tahoe's to Windstars
I been hardly helped, let it sing God
Diminish, I'm a bull dog, breathing British
You ain't side cause you nice yo it's all about your imageI brought my right guard incase my shot ain't handy
Speed stickin' me and mine
If I turn it up a degree
The secrets still kept
Never let em see you sweatI brought my right guard incase my shot ain't handy
Speed stickin' me and mine
If I turn it up a degree
The secrets still kept
Never let em see you sweatWhat, sitting on the bricks on the river front
And Cutlass', check the ashtray that hold the blunts
We hustling, I do the push ups and the sit ups nigga
Get muscular, just in case you let your lips slip up
I'm busting ya, never let em see you sweat
Yeah that's my motto, catch em in the club get wrecked
With the bottle, upside his head behind his neck
The others follow
Show them ya'll ain't bullshitting and you ain't hollow
I saw you talkin' to that chick, off over there
I heard you ask her why she on my dick, yeah, yeah
I heard it all before ya dig
Next thing you telling me Nelly
I put that on my fucking kid
What you think this is
I'm the reason they invented the whole navigational system
So niggas can't find they trucks and they women when I'm with em
Like I catch em in linen
And then I flip em and run up in em
Send her back to him
And go to his house and blow him with herI brought my right guard incase my shot ain't handy
Speed stickin' me and mine
If I turn it up a degree
The secrets still kept
Never let em see you sweatI brought my right guard incase my shot ain't handy
Speed stickin' me and mine
If I turn it up a degree

The secrets still kept
Never let em see you sweat
