Rosary

Deafkid

I finally found a way back into your stare
And when I took you back you told me I was always there
Then you close your eyes and hide inside your head
And when you run away you told me I was better then
Said well, Rosary, we can find a way around
Even if you run away, I will find a way to hold you around.
We said let's go away to a place we thought we left
Where we can close our eyes and then pretend that we were kids
And if I fall away, you'll be my guiding eyes
Even if we run away, we'll find a place to hide
You said, well, Rosary, we can find a way around
Even if I run away, I will find a way to hold you around
Said, well, Rosary, we can find our way around

Even if we run away, we can find a way to hold you, hold you down
Hold you down.
Even if you run
Even if you run
They found me in a hole behind your house
A little dusty, shaken up, and hollowed out
I'll follow you to make sure you got home
Then I saw you had someone to hold you,
I was lost.
I said well, Rosary, we can find our way around
Even if you run away, I will find a way to hold you around
Said, well, Rosary, we can find a way around
Even if you run away, I will find a way to hold you, hold you down.
