Go! (Friscia & Lamboy Electro Mix)

Jupiter Rising

Every day, the same day
It never changes
I hump the nine to five
I do what I do just to get by
I'm always fiending for a new life
Tonight's the night
I'm gonna settle the score
The weekday war for my soul
Tonight's the night I'm gonna lose control
Gonna hit the floor, act a foolBoy, you're on the floor now
Let the music take your soul
Boy, you're gonna score now
Maybe you should just let goGo, go if something happens on the floor
Go, go before they throw us out the door
Go, go because we want a little more
And we can't find it here; we got to goGo, go, we got to get it to the spot
Go, go, we got to drop it while it hot
Go, go, we got to do it when they not
'Cause we plot quite a lot with the skills that we got
