Statue

Lil Eddie

When a day is said and done,
In the middle of the night and your fast asleep, my love.
Stay awake looking at your beauty,
telling myself Im the luckiest man aliveCause so many times I was certain you was gonna walk out of my life (life)
Why you take such a hold of me girl
when Im still trying to get my act right.
What is the reason, when you really could have any man you want,I dont see, what I have to offer.
I shouldnt be in season, guess you could see I had potential.
Do you know your my miracle?Im like a statue, stuck staring right at you,
Got me frozen in my tracks.
So amazed how you take me back,
Each and everytime our love collapsed
Statue, stuck staring right at you,
So when I'm lost for words,
Every time i disappoint you,
Its just cause I cant believe,
That youre so beautiful. (Stuck like a statue)
Dont wanna lose you, no. (Stuck like a statue)Ask myself why are you even with me,
After all the shit I put you through,
Why did you make your heart song wit me
Its like youre living in an igloo
But baby your love is so warm it makes my shield melt down (down),
And everytime were both at war,
You make me come around.What is the reason, when you really could have any man you want
I dont see, what I have to offer .
I shouldnt be in season,guess you could see I had potential.
Do you know your my miracle?Im like a statue, stuck staring right at you,
Got me frozen in my tracks.
So amazed how you take me back,
Each and everytime our love collapsed.
Statue, stuck staring right at you,
So when Im lost for words,
Everytime i disappoint you,
Its just cause I cant believe,
That youre so beautiful. (Stuck like a statue)
Dont wanna lose you, no. (Stuck like a statue)
And youre so beautiful. (Stuck like a statue)
Dont wanna lose you, never. (Stuck like a statue)Every single day of my life I thank my lucky stars,

God really had to spend extra time, when he sculptured your heart.
Cause theres no explanation,cant solve the equation
Its like you love me more than I love myself.Im like a statue, stuck staring right at you,
Got me frozen in my tracks.
So amazed how you take me back,
Each and everytime our love collapsed.
Statue, stuck staring right at you,
So when Im lost for words,
everytime i disappoint you
Its just cause I cant believe,
That youre so beautiful. (You are the reason,)
Stuck like a statue. (The reason for living,)
Dont wanna lose you, no. (The reason for breathing)
Stuck like a statue. (Youre so beautiful)
And youre so beautiful. (And I want you to feel it)
Stuck like a statue. (Cause so bad Im needing)
Dont wanna lose you, no. (Youre the reason for breathing)
Stuck like a statue. (Youre so beautiful)
When a day is said and done,
And in the middle of the night youre fast asleep, my love...
Im the luckiest man alive
