History Reversed

Communic

Always in a state of evolution
Some people try to differ from one another
To beat life's quiz is not an easy taskHots pepper produce an unpleasant pain
Yet fools come back to feel the burn
Are we lost in the garden of hypocrisy?Now we have formed a riot against the masses
Information lost before it reach the point
Now we have formed a riot against the masses
Information lost before it reach the pointAll system lock down
Go to self destruct
All system lock down
Go to self destructIn a state of evolution
Some people try to differ from one another
An unpleasant pain when we feel the burnThe future is set, the earth is run by a nuclear sun
Leaders sit high, as we live like worms
The circle is closed the history reversedAll we have done for you to be
The world has become what we didn't see
It's time to rise, there's no easy way outNow we have formed a riot against the masses
Information lost before it reach the point
Now we have formed a riot against the masses
Information lost before it reach the pointAll system lock down
Go to self destruct
All system lock down
Go to self destructIn a state of evolution
Some people try to differ from one another
An unpleasant pain when we feel the burnAre we lost in the garden of hypocrisy?
