Seesaw

The Royaltones

Wanna make my eyes shut
But I've just came in half cut
And I know I won't sleep tonight

I just wanna call you up
But tonight I really fucked it up
Cause I can't ever do things right

Tonight we're sat on the seesaw, watching me fall
Down
We are not equal
What I did was evil
Heating in the playground

We're on the seesaw but I'm the one to fall
Keep going down down
We're on the seesaw but I'm the one to fall
Keep going down down down

Alone

Next morning I wake up
Eyes still caked in make up
I can't believe I said those things to you
Baby, I didn't mean to but it's pointless trying to prove to ya
It's only something alcohol may do

Tonight we're sat on the seesaw watching me fall down
We are not equal what I did was evil, cheating in the playground

We're on the seesaw but I'm the one to fall
Keep going down down down
We're on the seesaw but I'm the one to fall
Keep going down down down

Nd now you watch me turn around
Just as you turn around I can see your body frown
No need for me to drown
Head is spinning out like a merry go round

But this love is not a playground

We're on the seesaw but I'm the one to fall
I keep going down down down down
We're on the seesaw but I'm the one to fall
I keep going down down down down

Down down down I'm falling
Down down down I'm falling
Falling down
