Carve

nests

Caught in the middle
It's all that I've got
I'm done pouring out all of my thoughts
For you all to judge
Tear into space with a new frame of mind
Could you carry me over the line?
As your number oneWhere is the line?
Carve your name into me!
'Cause I'll never remember tonight
Carve your name 'til I bleed!
And I won't even put up a fight
I know you want what's best for me
Don't let me up 'cause I'll runHere in the panic that I call my life
I'm still trying to make it all right
While the stars, they fall
Tear into space with a new set of lies
Could you carry me over the line?
As your number oneWhere is the line?
Carve your name into me!
'Cause I'll never remember tonight
Carve your name 'til I bleed!
And I won't even put up a fight
I know you want what's best for me
Don't let me up 'cause I'll runCarve your name into me!
'Cause I'll never remember tonight
Carve your name 'til I bleed!
And I won't even put up a fight
I know you want what's best for me
Don't let me up 'cause I'll runI'll run
I'LL RUN!
I'll run...
