Heavy Weather

North Sea Radio Orchestra

This morning it was summer
By noon a cold front building
Where did you go?
Where did you go?I got to find some shelter
'Cos any minute now
It's gonna blow
It's gonna blowBut I don't mind the rain, so strike me once again
I've got nothing to lose
And it looks like we are in for stormy weather
Death and destruction coming throughOh, look out there she blows
Now everybody knows
Stormy weather always makes me think of you
And watch out 'cos the storm is coming throughBut you're so still and silent
Whilst every thing's dissolving
Melting away
Melting awayBut I don't mind the rain, so strike me once again
I got nothing to lose
Yeah, it looks like we are in for stormy weather
With death and destruction coming throughOh, look out there she blows
Now everybody knows
Stormy weather always makes me think of you
Oh and it looks like we are in for stormy weather
With death and destruction coming throughOh, look out there she blows
Now everybody knows
Stormy weather always makes me think of you
And watch out 'cos this storm is coming through
Yeah, watch out 'cos the storm is coming through
