All Hell Let Loose

Grim Reaper

When the night closes in
And the dark shadows fall
That's where it starts again
Evil making its callTo someone who sits unaware
Could it be you, I'd beware
There's footsteps behind you
You're at the scene of its lairImagination burns
All hell let loose, all hell let loose
Try to shake the image from your mind
All hell let loose, all hell let loose
Imagination burns
All hell let loose, all hell let looseA flash of light begins a thunder in the sky
Thoughts of terror that will come to you and I
But don't give in with, try with all your might
Won't give up without a fightWhen you wake in the morning
You should be alright
But evil awaits you
To take you back into the nightImagination burns
All hell let loose, all hell let loose
Try to shake the image from your mind
All hell let loose, all hell let looseAll hell let loose, all hell let loose
All hell let loose, all hell let loose
All hell let loose, hell let loose
Hell let looseI'm coming to get you
Ha, ha, ha, ha, ha
