Where Did The Time Go?

Hangnail

I remember when we used to think
We'd hang out all our lives
Yeah, things would never be the sameEven now when I look back on that
I think about my friends
And wonder what they're doing nowIt's not too easy growing up
And holding life's pieces intact
Now all my friends are growing up
I wasn't planning on thatI remember dreams we used to dream
And plans we used to make
We thought we had it figured outAnd now the time has passed us by
Our dreams are put on hold
And life just fits us in the moldIt's not too easy growing up
And holding life's pieces intact
Now all my friends are growing up
I wasn't planning on thatIt's not too easy growing up
And holding life's pieces intact
Now all my friends are growing up
I wasn't planning on that
