The Pacemaker

Magnet

Slow down the pace
I have never known me this out of place
If stupid acting dumb
Is this shape of things to come
And I add up that sum
Then this is where I cant get back fromTake my hand, I will follow
Only you can slow this down
Take my hand and I will mellow
'Cause only you can hold me like a tourniquet
And make me stay here with youNo, ego left to bruise
At least theres something good in most bad news
'Cause I just dont want to cruise
With anyone of all the young dudes
'Cause round for round
Only uncool will travel on gravel groundSo take my hand, I will follow
'Cause only you can slow this down
You take my hand and I will mellow
'Cause only you can slow this down
'Cause you can slow this downTake my hand, I will follow
'Cause only you can slow this down
Take my hand and I will mellow
'Cause only you can hold me like a tourniquet
Make me stay here with you
