Old Habits Die Hard

Dusty Springfield

It's my decision you look my way
With innocent expression just as if to say
It would be easy the mood is right
Forget for just one moment who we are tonight
I start to weaken the music's strong
My conscience speaks, I know it's wrong
Give it up remember what you said
This kind of loving doesn't happen everyday
Give it up that's the way it starts
Discover old habits die hard
Temptation makes a fool out of us all
I made my mind up it had to end
So why this indecision when you're close again?
Oh, the thought's appealing I can't deny
With those old memories stealing back across my mind
I thought by now that the flame had gone
I realize that I'm still holding on
Give it up remember what you said
This kind of loving doesn't happen everyday, no
Give it up that's the way it starts
Discover old habits die hard
Temptation makes a fool out of us all
I'll just keep holding on
It's easier said than done
Give it up remember what you said
This kind of loving doesn't happen everyday, no
Give it up that's the way it starts
Discover old habits die hard
Give it up remember what you said
This kind of loving doesn't happen everyday, no
Give it up that's the way it starts
Discover old habits die hard
Give it up remember what you said
This kind of loving doesn't happen everyday
Give it up that's the way it starts
Discover old habits die hard
