Immune (The French - R2D2 Mix)

Tinfed

Can't resist, full of lies, full of it and fully deny
Couldn't risk but couldn't decided anyway
I admit I would deceive, you are hit with this disease
Another fact I just can't conceiveAnd the truest most pure of hearts
And the truest most pure is not
Immune to blue, immune to blue, blueI admit I confess evil without rest
And you'd be true at any test so wise up
What was thrown down to you
Could be a crown on me, we can speak here openlyAnd the truest most pure of hearts
And the truest most pure is not
Immune to blue, immune to blue, blue
Immune to blue, immune to blue, blueAnd the truest is
And the truest is
And the truest is
And the truest isAnd the truest most pure of hearts
And the truest most pure is not
Immune to blue, immune to blue, blue
Immune to blue, immune to blueAnd so soon we'll all be immune
So soon we'll all be immune
So soon we'll all be immune
So soon we'll all be immune
