

# My Girl

Colby O'donis

So so def so so def convict  
Heeyy (hey) ohhhh ohhh  
Do you want to (want to)  
Take a second to see if both us suit  
Me fine, we fine  
Cos if anything our feelings are both linked with  
Its alright baby even to despise baby  
I'm totally in love with you  
And I don't what to do  
So I took it from the top I said  
[Prelude:]Hey there pretty mama whats your name, whats your name  
I'm so glad that I found ya and you came and you came  
I know my pick up line was pretty lame pretty lame  
It was from skies and the heavens above  
Your only girl I think I could love  
[Chorus:]Girl I had to try make you my girl  
When they told not to cos I'm loser from my world  
But I didn't want to lose a chance with a second glance  
Even more than friends and than your bitches  
You and me  
[Rap: Hot Dollar]When I met you looked to good be single  
But blushed too hard when we mingled  
Second chance came a month later  
I second glanced her in the elevator  
Ask ya for your number and name as you were leaving  
You took mine and called me the next evening  
Intellectual conversations we start dating  
Whenever I'm in your presence your hearts racing  
Took you on shopping sprees and Paris beauties  
The bond we share each other is unique  
  
Not a second we spent apart I'm not thinking of ya  
You know I love you can feel it when I hug ya  
[Chorus:]Girl I had to try make you my girl  
When they told not to cos I'm loser from my world  
But I didn't want to lose a chance with a second glance  
When were more than friends and than your bitches  
You and me  
Sometimes I feel like I can know

Yes better than you know ya  
Sometimes I feel I like I could show ya  
Yes better than they show ya  
And every night girl I'm having dreams of you  
I'm totally in love with you  
And I don't what to do  
So I took it from the top I said  
[Prelude:]Hey there pretty mama whats your name, whats your name  
I'm so glad that I found ya and you came and you came  
I know my pick up line was pretty lame pretty lame  
It was from skies and the heavens above  
Your only girl I think I could love  
Girl I had to try make you my girl  
When they told not to cos I'm loser from my world  
But I didn't want to lose a chance with a second glance  
When were more than friends and than your bitches  
Girl I had to try make you my girl  
When they told not to cos I'm loser from my world  
But I didn't want to lose a chance with a second glance  
When were more than friends and than your bitches  
You and me
