Revolver

ã‚·ãƒ-é£¯ â ¹ å‘¨å¹³

Small groove thing invades my veins
Soul deserts and leaves this chain
Here she's coming to me
Revolver excludes this community
Small groove thing, take off my chains
Hoover will soften my pain
Here she's coming to you
Floating on a white caribou
Small groove thing invades my veins
Soul deserts and leaves this chain
Small groove thing, take off my chains
Hoover will soften my pain
Here she's coming to me
Revolver excludes this community
Here she's coming to you
Floating on a white caribou
