Cutie

Showaddywaddy

Passing by, I first saw you standing all alone out in the rain
You're little body dampened by the weather
Looking like a picture all the same
I thought I'd kinda like to get to know ya
Like the chance to take you for a drive
We can move on down the center highway
Run outta gas out in the countryside
Me oh me oh my, girl I like your style - cutie cutie
Me oh me oh my, yeah you make me smile - cutie cutie
In a little while I'll take you
In a jam you help me right on through
Got to find a better registration
JU104 was not your style
Came across a Jag it was a write-off
Cutie it made me smile
Me oh me oh my, girl I like your style - cutie cutie
Me oh me oh my, yeah you make me smile - cutie cutie
Me oh me oh my, girl I like your style - cutie cutie
Me oh me oh my, yeah you make me smile - cutie cutie
