

# Talk of the Town

## Pet Names

I've got this image of you in a disposable flash  
Slightly red-eyed and over-exposed  
And you're leaning on me  
Like you're swept off your feet  
Trying to hold a pose Where did you go after the show? You're spending every day the talk of the town  
You're always running around  
You never settle down Were you hiding in the bathroom,  
Leaning on the sink,  
While I was spacing out in my car,  
Trying to finally think?
