Kill the King

Heathen

Danger, danger
The Queen's about to kill
A stranger, stranger
Life's about to spillOh no, move away from harm
I need a spell, a charm
Fly like the wind
And the pawn will be gone
Speed on and onKill the king
Tear him down
Kill the king, yeah
Strike him downPower, power
Happens every day
Power, devour
All along the wayOh no, move away from harm
I need a spell, a charm
Fly like the wind
And the pawn will be gone
Speed on and onKill the kingTreason, treason
The spectra looms again
Treason, reason
The realm is safe and thenOh no, move away from harm
I need a spell, a charm
Fly like the rainbow
And the pawn will be gone
Speed on and onKill the king
Strike him down
Kill the king, yeah
Got to take his crown, yeahOh, kill
Oh, kill
Oh, oh
