Hell If I Could

Prong

You wanna know something
Well, I'd give you hell if I could
Still I try so hard
Not to careSold on the excess
Chasing the tail to the cage
Joke's on you, you're sliding
And not far, not far to goYou wanna know something
I'd give you hell if I could
You wanna know something
I'd give you hell if I could
I swear, you've not far to goSome are so sad
They pray the bad go away
I itch and sore
And still I can't complainSing, have gun will travel
It all looks so stupid to me
Seconds stutter backwards
And not far, not far to goYou wanna know something
I'd give you hell if I could
You wanna know something
I'd give you hell if I could
I swear, you've not far to goYou wanna know something
I'd give you hell if I could
You've not far to go
You wanna know something
I'd give you hell if I could
I swear, you've not far to go
You've not far to goYou wanna know something
I'd give you hell, I'd give you hell
You wanna know something
I'd give you hell if I could
I'd give you hell, I'd give you hell
I'd give you hell if I could
