Shine

Mike Oldfield

Shine
shine
she is my light
she's my light.
Shine
shine
I need her light
she's my light.
All you can need and you desire
If I'm put to the test
I believe I couldn't get higher.
Just by being with you
pictures now out of my mind.
Have we danced before long ago
or in another time?
Becaus@
Lecause
sl@e was
she was niade in htavtn.
She was
she was
she was a maid in heaven.
All that you need and you desire
Can we sing to the sunlight playing with fire?
Just by being with you spins me straight round the moon.
And if our rainbows could dance
he'd dance for your desire soon.
Because
because
she was

she was
she was made in heaven.
She was
she was
she was a maid in heaven - she was.
Shine
shine
she is my light

she's my light - she's my light!
Shine
shine
I need her light
she's my light - and a maid in heaven!
Shine
shine
she is my light
she's my light -
She was a maid in heaven!
Shine
shine
I need her light
she's my light.
Shine
shine
she is my light
she's my light - she's my light!
Shine
shine
I need her light
she's my light -
She was a maid in heaven! Shine!
