Hyperspace

MV & EE

Hands up who thinks it's now
Home base is the bathroom where the lights are brightIt's never too late if you know how
We got our own brand of hyperspaceYou cannot change anyone
There is no peace, there's only sunWhen you want to go, I know you will
When you want to go, I know you will
And I can see it all
And I'm okay, I wish there was another wayThere's no right and there's no wrong
There's just the balance of the things you knowAnd when you want to go, I know you will
And when you want to go, I know you will
And I can see it all
And I'm okay, I wish there was another way
And I can see it all
And I'm okay, I wish there was another wayHands up who thinks it's now
Home base is the bathroom where the lights are brightAnd when you want to go, I know you will
And when you want to go, I know you will
And I can see it all
And I'm okay, I wish there was another way
And I can see it all
And I'm okay, I wish there was another way
And I can see it all
And I'm okay I wish there was another way
